

THE VOID OF EXPANSION

TECH RIDER

technical requirements:

PLEASE SEE STAGEPLAN & INPUTLIST

2x small round chair/stool for drummer (adjustable in height)

sufficient microphone xlr-lines necessary to mic/amplify the complete drumkit and the two amps

1x monitor for guitarist

1x monitor for drummer

2x free lines of 220v power supply (+ extension cords) - from both corners of the stage

stage lights : DARK - dimmed indirect white lights (NO RED or BLUE) !!

fogmachine = lots of fog !!!!!

For regular clubs & bigger venues, the following requirements apply :

system : estimated 1000 watts for small venues, theaters - supplemented accordingly the venue - it's not the loudness but the dynamics of the pa system that counts.

speaker system : 3-way active + separate subs reproducing frequency range below 120 Hz.

FOH control : minimum of 4 inputs (no digital mixing boards preferred) - each input channel needs to have 4-way full parametric equalization

monitoring : monitoring required

For smaller venues/jazzclubs, unplugged live sets are possible

concertinfo:

1) please announce as : **THE VOID OF EXPANSION**

2) set-up + soundcheck : 90 minutes

3) access to venue : soundcheck needs to end minimum 1 hour before start of concert – doors remain closed for audience during soundcheck.

4) during set-up, soundcheck, concert : venue technician needs to be present.

5) concert : **max 50 minutes** (no break)
